VISUAL ART

Painting and Drawing,
Animated Film-Making

SPECIAL PROJECTS/TECHNICAL ASSISTANCE

BACKGROUND

Richard Bloodworth received a bachelor of fine arts degree in painting and drawing from the University of Georgia, and has also attended Georgia State University and the Georgia Institute of Technology. He has lived and worked in Atlanta and Athens, and has traveled extensively around the United States and Europe where he studied, under scholarship, with the University of Georgia's studies abroad program in Cortona, Italy. His artwork has included architectural renderings, portraits, commissioned paintings and murals, illustrations, graphic design, lithography and film-making and animation. Clients include Emory University and the University of Georgia, as well as architects, advertising agencies and private individuals.

FORMAT

Drawing - from observation, nature, imaginary constructs; elementary introduction of perspective, contour and gesture drawings.

Painting - color theory, introduction to painting and media, especially oil, acrylic, and watercolor.

Animated Film-Making - making an animated class film utilizing three-dimensional objects and drawings, including filmed flip books.

Three-Dimensional Art - sculpture and architectural model-making.

Statement of Purpose:

Communication is the prime purpose of human interaction. In order to complete the process of communication the speaker must be understood by the person being addressed. In our rapidly changing technological world the necessity for an international verbal language has arisen (the other forms of language being visual, musical, and mathematical). I have always been fascinated by the processes of communication through language and would like to make my contribution toward world communication and understanding.
