This letter is written to state that Richard Bloodworth taught at our school, S.E.T., in 1998 and 1999. He taught English and mathematics to elementary and junior high school students and checked their compositions. He also attended and taught at our summer study camp session in July 1998. He taught us about aspects of American culture such as Halloween, Christmas, etc. He is loved by our students because he was always kind and considerate to, and patient with, them. The students learned much from his instruction and enjoyed his lessons.

Also, we used some of his illustrations and photographs of him for our school booklet cover, back, and inside pages. He also worked well with and had good relations with our Japanese teachers.

For these reasons, I recommend him as an effective teacher and artist.

Sincerely,

Tsuji Keiichi

Dear Richard.

If I well understood yesterday, I would know your story. (Conditional 2)

I think, your story was:  
you used stuffs from a tissue for your ears because of a noise. You forgot one of them in your ear.  
It made a inflammation of ear when you were in Japan.  
The first doctor gave to you antibiotics to cure the inflammation without removing a cause of the inflammation.  
The second doctor removed a stuff and your ear healed.

Wasn't it?

This doctor has an ear - microscope with optics for a transmission to screen (in my opinion).

I am your student Yoon

Dear Richard,

This is my first card to write in English since I was born. So my English may be full of mistakes, but please don't laugh at me.

I think that you are so busy, what with Christmas only a few days off. In Korea, Christmas is not so big a holiday as in the U.S.A. or Europe, but in recent years, especially young people have come to observe the day.

I'm anxious to know how you will spend this X-mas. I hope this X-mas is your marriest one. And I sincerely wish

that you would be healthy and fortunate in Korea throughout next year.

Thank you very much for your teaching!
